Description			
Calculation of Estimate Price Detail Page.			

History

#1 - 04/06/2026 09:15 AM - Saransh Bakoliya

Today i have Worked On->

Implemented Estimated Price module UI with dynamic inputs and calculation flow.
Integrated Station → Charger filtering logic to ensure valid machine selection.
Fixed multiple API errors (403 & 400) by correcting permissions and payload structure.
Integrated Car Brand & Model APIs with dependent loading based on selection.
Completed end-to-end estimate price calculation flow with real API response (removed dummy data).
