History

#1 - 07/24/2026 09:34 AM - Shreya Agarwal

Active Sessions Tab - Date & Charger Tag Filters  
Added From Date and To Date date pickers to filter active sessions by start time  
Added Charger Tag dropdown filter to filter sessions by charger tag name  
Reorganized filter UI with Apply/Reset buttons at the bottom right (matching Revenue Report style)

2. Session History Tab - Max Energy Filter  
Added Max Energy filter with preset options (1, 2, 5, 10 kWh) and custom value input  
Updated API call to support maxEnergyKwh parameter

3. Failed, Faulted & Abandoned Tabs - Max Duration & Max Energy Filters  
Added Max Duration filter with preset options (5, 10, 15, 30, 60 min) and custom value input  
Added Max Energy filter with preset options (1, 2, 5, 10 kWh) and custom value input  
Updated API calls to support maxDurationMinutes and maxEnergyKwh parameters

4. Type Definitions Updated  
Added maxEnergyKwh to SessionHistoryQueryParams interface  
Added new filter state fields for all tabs (failedMaxDurationOption, failedMaxEnergyOption, etc.)  
some issue pending will solve
