Description			
Design and implement the user interface for the following financial reports under the Accounts section:			
Balance Sheet Report			
Profit & Loss Report			
Trial Balance Report			
The UI should follow the existing application theme and provide a consistent user experience across all reports.			
Scope			
Create separate pages for:			
Balance Sheet Report			
Profit & Loss Report			
Trial Balance Report			
Add a common filter section with:			
Date Range / As On Date			
Station (if applicable)			
Company (if applicable)			
Apply and Reset buttons			
Display report data in a clean, hierarchical table layout.			
Include summary totals where applicable.			
Add Export options (Excel/PDF/CSV) following the existing report design.			
Ensure responsive layout and consistent styling with other reporting modules.			
Handle empty states and loading indicators appropriately.			
Acceptance Criteria			
UI is available under the Accounts section.			
All three report pages follow the application design guidelines.			
Filters are properly aligned and responsive.			
Tables support proper formatting for financial data.			
Export buttons are available in the report header.			
UI is consistent with existing reporting pages.			
No backend implementation is included in this task; this ticket covers UI design and implementation only.
